flower

Images from childhood are flashing behind closed eyelids. The swollen tree buds, the first spring blossoms and that amazing lightheartedness, that lightness of being. If only one could go back at least for a moment, lie in the grass, taste the morning dew, blow on a dandelion ...

... and make a wish ...

The designers of the FLOWER light were inspired by spring in all its forms. The time of fresh new beginnings with a promise of an elegant future. This innovation produced by Elite Bohemia follows on from traditional, richly decorated chandeliers using components made of crystal characterized by its high transparency and dazzling shine.

The FLOWER light brings sun to your home.
